1. Log in Page

This page serves as the initial entry point for users to access the Coffee Blends Inventory Management System. Users are required to provide their login credentials to gain access to the system.

- a. **Social Media Icons:** These icons represent popular social media platforms, such as Facebook, Twitter, Instagram, etc. Users can click on these icons to access the coffee shop's respective social media profiles.

- b. **Username Text Box:** Users should enter their unique username or email address in this text box.

- c. **Password Text Box:** Users should enter their password in this text box. The password characters will be masked for security purposes.

- d. **Remember Me Button:** By clicking this button, users can choose to have their login credentials saved for future logins.

- e. **Sign in Button:** Clicking this button will attempt to log the user into the Coffee Blends Inventory Management System with the provided username and password.

- f. **Forgot Password Button:** If users forget their password, clicking this button will initiate the password recovery process.

- g. **Don't have an Account Button:** Clicking this button will redirect users to the Registration Page if they do not yet have an account.

- h. **User's Manual:** This button provides users with access to the user's manual, offering instructions and guidance for using the Coffee Blends Inventory Management System.

2. Registration Page

The screenshot shows the registration page for 'Coffee Blends'. On the left is a decorative graphic of coffee beans and a splash of coffee. On the right is a registration form titled 'Hello! Create Your Account'. The form includes social media icons (Google, Facebook, TikTok, Instagram, Twitter) labeled 'A', a section for personal information (Firstname, Lastname, Sex, Age) labeled 'B', an email field labeled 'C', password fields labeled 'D' and 'E', a 'Sign Up' button labeled 'F', and a link for existing users labeled 'G'.

The Registration Page allows new users to create an account to access the Coffee Blends Inventory Management System. Users can input their personal information in the designated fields, including name, sex, and age. The page also includes social media icons for easy access to the coffee shop's social media profiles. Users need to provide a valid email address, choose a password, and confirm it for security purposes. The "Sign Up" button registers the new account based on the provided information. If a user already has an account, they can click the "Already have an Account" button to return to the Log in Page.

- a. **Social Media Icons:** These icons allow users to quickly navigate to the coffee shop's social media profiles by clicking on the respective icons.

A close-up of the personal information fields. The fields are labeled 'Firstname', 'Lastname', 'Sex', and 'Age'. The example data entered is 'Donald', 'Entong', 'Male', and '20'.

- b. **Personal Information Section:** This section includes fields for users to enter their personal information, such as name, sex, and age.

- c. **Email Text Box:** Users should enter their email address in this text box.

- d. **Password Text Box:** Users should enter a password in this text box. The characters entered will be masked.

- e. **Confirm Password Text Box:** Users should re-enter their password in this text box to ensure accuracy and avoid mistakes.

- f. **Sign Up Button:** Clicking this button will register the user's account based on the provided information.

- g. **Already have an Account Button:** Users who already have an account can click this button to return to the Log in Page.

3. Dashboard Page

The Dashboard Page serves as the main hub of the Coffee Blends Inventory Management System. It provides an overview and quick access to various functionalities. The page includes buttons for navigating to different sections of the system.

- a. **Home Button:** Clicking this button will navigate users back to the main Dashboard Page, providing an overview of the Coffee Blends Inventory Management System.

- b. **Account Button:** Clicking this button allows users to access and manage their account details, such as updating personal information or changing passwords.

- c. **Product Inventory Button:** This button grants users' access to the Product Inventory Page, where they can manage and track coffee blends and other related products.

- d. **Sales Button:** Clicking this button allows users to view and analyze sales data, including reports, charts, and statistics.

- e. **Order Button:** Users can click this button to manage customer orders, including placing new orders, tracking existing orders, and managing order details.

- f. **Log Out Button:** Clicking this button will log the user out of the Coffee Blends Inventory Management System, terminating their session and requiring re-authentication to access the system again.

4. Product Inventory Page

The screenshot shows the 'Product Inventory' page with the following components and annotations:

- A:** Search ID input field with a search icon.
- B:** Filter buttons for Product Name, Category, Price, and Quantity, along with a plus icon for more filters.
- C:** The main data table with columns: product_id, product_name, product_category, product_price, and product_quantity.
- D:** A blue highlight on the last row of the table.
- E:** A grey bar at the bottom of the table area.
- F:** Action buttons: EDIT, DELETE, and BACKUP.
- G:** Import button.
- H:** Export button.

product_id	product_name	product_category	product_price	product_quantity
1	Cappuccino	Coffee	60	30
2	Latte	Coffee	69	30
3	Espresso	Coffee	100	30
4	Amerikano	Coffee	80	30
